United Nations A/71/583

General Assembly

Distr.: General
28 October 2016

Original: English

Seventy-first session
Agenda item 143
Administrative and budgetary coordination of the United Nations with the specialized agencies and the International Atomic Energy Agency

Budgetary and financial situation of the organizations of the United Nations system

Note by the Secretary-General

Summary

The present note by the Secretary-General transmits to the General Assembly the statistical report of the United Nations System Chief Executives Board for Coordination on the budgetary and financial situation of the organizations of the United Nations system. In its resolution 63/311 on system-wide coherence, the Assembly requested the Secretary-General to create a central repository of information on operational activities for development, including disaggregated statistics on all funding sources and expenditures, building on the comprehensive statistical analysis of the financing of operational activities for development, and to ensure appropriate and user-friendly online access and regular updating of the information contained therein.

The secretariat of the United Nations System Chief Executives Board for Coordination (CEB) has worked continuously to enhance the structure and content of the reports, in particular by including details of assessed contributions for United Nations peacekeeping operations from 2014 and more comprehensive data on revenue relating to extrabudgetary resources from Governments and from non-State donors. The data in the report cover a six-year period from 2010 to 2015, with a particular focus on revenues and expenses for the biennium 2014-2015.

The report contains a transparent presentation of revenue, expenses and approved budgets, in line with the International Public Sector Accounting Standards, as well as a table on total expenses for 2014-2015 by major programme category. These categories allow CEB to collect the financial data used by the Department of Economic and Social Affairs in its report on operational activities for development, thereby reducing the reporting burden on organizations.

16-18885 (E) 071116

Please recycle

The present report and the corresponding analysis of the figures presented, including a snapshot on the distribution of extrabudgetary resources by country, organization and donor type, are also available on the website of the CEB secretariat (http://www.unsceb.org) and represent the response of the CEB secretariat to resolution 63/311 and decision 69/551.

Statistical report of the United Nations System Chief Executives Board for Coordination on the budgetary and financial situation of the organizations of the United Nations system

I. Introduction

1. The present report is the fourteenth of its kind to be presented by the United Nations System Chief Executives Board for Coordination (CEB).

II. Improving transparency and comparability

A. Revenue reporting

2. The organizations of the United Nations system have a wide range of funding models and terminologies. The assessed organizations are funded through a mandatory scale of payments approved by the appropriate governing body. Additional contributions to the assessed organizations are deemed to be voluntary, although they are usually earmarked. However, for the non-assessed (or voluntary) organizations, all funding is voluntary.

3. The report presents the total revenues of United Nations organizations by type of funding. The four common types of funding are:

- Assessed contributions
- Voluntary contributions, not specified
- Voluntary contributions, specified
- Revenue from other activities

The figures in the report are also found in the financial statements of individual organizations and have been converted, as needed, into United States dollars for comparability.

B. Expense reporting

4. In results-based models, all funding received, regardless of its accounting definition, is for the work of the organization. Total expenses are presented against five common programme themes:

- Development assistance
- Humanitarian assistance
- Peacekeeping (Department of Peacekeeping Operations)
- Technical cooperation
- Normative, treaty-related and knowledge-creation activities

C. Budget reporting

5. For many organizations, the concept of the regular budget, funded either by assessments or by voluntary funds, remains valid. However, in this model, some organizations report only the administrative expenses in their regular budget, while others report total expenses (see footnotes to table 1). The governing bodies of an increasing number of organizations are now approving a total funding envelope, based on a strategic plan which may include all funding sources. Against these varying definitions, budget figures have been presented in the traditional format with the appropriate footnotes.

D. Requirements of the International Public Sector Accounting Standards

6. All United Nations organizations implemented the International Public Sector Accounting Standards (IPSAS) prior to or during the 2014-2015 reporting period, with the exception of the International Fund for Agricultural Development, which prepares its financial statements in accordance with the International Financial Reporting Standards. One of the requirements of IPSAS is the harmonization of terminology for reporting financial data. Resource inflows are reported as "revenues" and outflows, formerly known as "expenditures", are now called "expenses". While the terminology may have changed, the underlying activities (receipt or disbursement of funds) have not fundamentally changed (see the glossary of terms below).

III. Financial statistics of the United Nations system

7. The tables in the report are grouped under the following five subject headings:

(a) Approved budgets (table 1);

(b) Revenues (tables 2-2D);

(c) Expenses (tables 3 and 3A);

(d) Assessments (tables 4-7);

(e) Working capital funds (table 8).

A. Approved budgets (2010-2015)

Table 1. Approved budgets (2010-2015). Following previous practice, table 1 shows the regular budgets of organizations for 2010-2015. In this context, regular budgets are traditionally equated with regular resources plus any approved expenditures from extrabudgetary sources, if approved by the governing body. As noted, some organizations report total approved expenditures as their approved budget.

B. Revenues

Table 2. Total revenue by organization (2014-2015). This table reflects the four major categories of revenue received by United Nations organizations, namely:

- Assessed contributions
- Voluntary contributions, not specified
- Voluntary contributions, specified
- Revenue from other activities

Table 2A. Voluntary contributions, specified, received from funding countries and areas (2014-2015): summary by organization.

Table 2B. Voluntary contributions, specified, received from certain non-Member State donors (2014-2015). This table covers the total revenues received by United Nations system organizations from defined categories of non-State donors. Data are broken down into four categories:

- Revenue from the European Commission and its agencies
- Revenue from organizations of the United Nations system
- Revenue from international financial institutions such as the World Bank and regional development banks
- Revenue from foundations, corporations, national committees and other civil society organizations

Table 2C. Voluntary contributions, specified (2010-2015). This comparison table shows the total voluntary contributions, specified, by organization, for 2010-2015.

Table 2D. Donations in kind (2010-2015). This table covers total donations in kind, by organization.

C. Expenses

Table 3. Total expenses by organization (2014-2015). This table shows expenses for 2014-2015 by major programme category. The use of such categories allows CEB to also collect financial data for use by the Department of Economic and Social Affairs in its report on operational activities for development, thus reducing the reporting burden on organizations. The categories, which are also intended to increase comparability and transparency, include:

- Development assistance
- Humanitarian assistance
- Peacekeeping (Department of Peacekeeping Operations)
- Technical cooperation
- Normative, treaty-related and knowledge-creation activities

Table 3A. Total expenses by organization (2010-2015). This comparison table shows total expenses, from all funding sources, for each organization for the period 2010-2015.

D. Assessments

Table 4. Assessed contributions by organization (2010-2015). Table 4 shows the total assessments payable by members of organizations under approved regular budgets. Assessed contributions relating to United Nations peacekeeping operations have been included as from 2014.

Table 5. Percentage assessments (2014-2015). Table 5 shows, for each of the organizations that collect assessed contributions against an approved scale, the percentage amounts of the assessed contributions payable for 2014 and 2015.

Table 6. Assessments voted and received (2014-2015). Table 6 shows, for each of the members of the organizations collecting an assessed contribution, the assessments payable and the amounts collected in relation to current assessments for 2014 and 2015 and arrears collected during the biennium 2014-2015.

Table 7. Collection of assessed contributions (2014-2015). Table 7 shows the percentage of the current year's assessed contributions that were collected at 30 June and at 31 December (fiscal year-end) for 2014 and 2015. The table also shows, by organization, the total amount of all assessed contributions that remained outstanding at the end of each fiscal year.

E. Working capital funds

Table 8. Working capital funds. Many, but not all, organizations have a governing body-mandated amount of cash reserves to be held in case of funding fluctuations resulting from, among other things, foreign exchange impacts and funding changes. These can take the form of a liquidity policy, a working capital fund or other mechanism. Where these exist, organizations have reported their value for 2014 and 2015. To improve comparability, the amounts are presented as a percentage of available resources, which are defined as the sum of all revenue types for which the use is not specified.

Glossary

A. Revenue categories

Assessed contributions

This category reflects contributions received as an assessment, a contributory unit or other payment scheme mandated in a convention or other basic instrument of an organization.

Voluntary contributions, not specified

This category reflects contributions received by the organization in support of its mandate or programme for which no specific use is required by the donor. No individual reports are made on the use of such contributions.

Voluntary contributions, specified

This category reflects all revenues received by an organization for which the nature and the use of the funds are specified. Generally, each contribution will have an individual reporting requirement.

Revenue from other activities

This category reflects all other revenue recorded by the organization that is not considered a contribution under the organization's accounting policies.

B. Expense categories

Development assistance

This reflects activities of the United Nations funds, programmes and agencies that are specifically aimed at promoting sustainable development in developing countries. Development assistance differs from humanitarian assistance in that the focus is on long-term impacts.

Humanitarian assistance

This reflects the assistance provided by the United Nations system for humanitarian purposes, typically in response to natural or man-made disasters and with a short-term focus.

Technical cooperation

This reflects activities undertaken by United Nations system organizations that cannot be directly linked to a national development plan.

Peacekeeping operations

This reflects the activities of the Department of Peacekeeping Operations and any other expenses incurred in support of those activities.

Normative, treaty-related and knowledge-creation activities

This category reflects a wide range of activities that do not fit into the descriptions above. United Nations organizations may establish standards (namely, normative conduct) that may or may not be mandatory or binding on Governments or Member States. They may also undertake programmes of work as a result of international agreements and treaties. Lastly, most organizations undertake a wide range of activities such as establishing policies and performing research with the goal of enhancing or creating "knowledge".

C. Mapping former reporting categories and methodologies

Budgetary or core revenues/expenditures

Traditionally, the terms "budgetary" and/or "core" were used interchangeably to reflect funds received by an organization to undertake its programme of work. This revenue included assessed contributions, voluntary contributions, not specified, or other earned or miscellaneous income. While the revenues received were in support of the core activities or budget, the total amounts actually received (with the exception of assessments) normally did not correspond to the approved budget.

In general, core revenues equated to assessed contributions plus voluntary contributions, not specified, and other revenues.

Extrabudgetary or non-core revenues/expenditures

These two terms were used interchangeably to reflect funds for which the use was specified by the donor. Because they were traditionally considered to be outside the budget, especially for assessed organizations, these funds were denoted as extrabudgetary. In practice, there are many types of revenue which are outside the budget but for which the use is not actually specified.

In general, revenues previously reported as extrabudgetary or earmarked contributions are the same as the new category of voluntary contributions, specified.

Calculation of United States dollar amounts

For most United Nations organizations, the United States dollar is the currency of account. For organizations that report in a currency other than the United States dollar in their financial statements, their reported amounts were converted using the year-end United Nations operational rate of exchange. As a result, all foreign exchange conversions used the same methodology for improved comparability and transparency.

The following agencies do not keep all their accounts in United States dollars:

- Euro accounts: IAEA, UNIDO, UNWTO
- Canadian dollar accounts: ICAO
- Pound sterling accounts: IMO
- Swiss franc accounts: ILO, ITU, UPU, WIPO, WMO, WTO

(Footnotes on following page)

Notes

The present table shows the annual amounts approved under regular budgets plus any approved supplementary estimates, except as indicated in the following notes:

(a) The budget amounts of the following organizations represent total approved expenditures for 2010 to 2015: UN-Habitat, UNAIDS, UNU, WMO and WTO;

(b) As at 2010, UNHCR is implementing a needs-based budget;

(c) IFAD: the IFAD budget represents the operating costs of the organization and does not include any disbursements for financing;

(d) IMO: the figures used in table 1 are regular budget figures for assessment purposes only and do not include other programme funds;

(e) IOM: the figures reported in table 1 reflect the administrative part of the budget funded from assessed contributions;

(f) UNDP: "regular budgets" refers to untied voluntary contributions to UNDP and excludes trust funds, cost-sharing contributions or any other extrabudgetary contributions;

(g) UNEP: up to 2011, the reported budget refers to the "regular budget", which is the budget allocation to the UNEP Environment Fund approved by its Governing Council. Contributions to the Environment Fund are voluntary;

(h) UNFPA: "regular budgets" refers to untied voluntary contributions to UNFPA and excludes trust funds, cost-sharing contributions or any other extrabudgetary contributions;

(i) UN-Habitat: from 2008-2009, "regular budget" refers only to the budget allocation received by UN-Habitat from the United Nations Secretariat;

(j) UNICEF: for the period 2008-2011, the "approved budgets" refers to the "biennial support budget" funded from regular resources and cost recovery. For the period 2012-2015, the "approved budgets" refers to the institutional budget funded from regular resources and cost recovery;

(k) UNIDO: net of reimbursable expenditure. The UNIDO figures reflect the regular budget as approved by its governing bodies. Approved budgets for extrabudgetary sources and estimated programme support costs do not constitute a part of the regular budget;

(l) UNODC: as of 2012, UNODC figures include regular budget;

(m) WHO: the amount represents the biennial programme budget;

(n) UNOPS: the approved budget represents the UNOPS management budget only and does not include funds and contributions relating to projects that it implements;

(o) UNESCO: two Member States have suspended their contributions to the Organization and therefore the actual assessed contribution is reduced annually by $73 million compared with the amounts approved from 2011 to 2015;

(p) UNRWA: the approved budget in table 1 represents only the approved programme budget cash.

Table 2

Total revenue by organization (2014-2015)

(in thousands of United States dollars)

Notes:

(a) Assessed contributions: contributions received as an assessment, a contributory unit or other mandatory funding method;

(b) Voluntary contributions, not specified: contributions received by the organization that have not been designated for a particular purpose by the donor;

(c) Voluntary contributions, specified: contributions received by the organization that are designated for a particular purpose;

(d) Revenue from other activities: other activities can include interest income, project fees and exchange gains and losses;

(e) UNEP assessed contributions comprise regular budget allocation and assessed contributions of multilateral environment agreements and conventions.

Table 2A

Voluntary contributions, specified, by organization and funding country/area (2014-2015)

(thousands of United States dollars)

(footnotes on following page)

Notes

(a) From 2015, contributions from "United Nations organizations" includes contributions from United Nations inter-agency pooled funds. Some of these amounts were reflected under other revenue categories in 2014 and prior years;

(b) From 2015, contributions from "Global vertical funds, foundations, corporations and civil society" includes contributions from global vertical funds, some of which may have been reflected under other revenue categories in 2014 and prior years;

(c) The amounts reported as contributions from United Nations inter-agency pooled funds in the present table may be reflected in the financial statements of some organizations as multilateral funding, attributed to the contributing donor, rather than revenue channelled through a United Nations agency.

Notes

(a) For 2008-2009, these amounts were defined as extrabudgetary, which meant that they were generally earmarked for specific purposes.

(b) UPU did not report any specified contributions for 2010-2011.

Notes:

(a) Development assistance: activities specifically aimed at promoting sustainable development in developing countries. It differs from humanitarian assistance in that the focus is on long-term impacts;

(b) Humanitarian assistance: assistance provided for humanitarian purposes, typically in response to natural or man-made disasters and with a short-term focus;

(c) Peacekeeping operations: activities of the Department of Peacekeeping Operations;

(d) Technical cooperation: activities that cannot be directly linked to a national development plan;

(e) Normative, treaty-related and knowledge-creation activities: activities such as establishing standards (namely, normative conduct); activities required by international agreements and treaties; and a wide range of activities such as establishing policies and performing research in order to enhance or create "knowledge".

(Footnotes on following page)

Notes

(a) IFAD expenses for 2008-2009 reflect administrative costs, expenses for 2010-2013 reflect total disbursements;

(b) ILO expenses are regular budget and technical cooperation only;

(c) UNOPS expenditure from 2012 onwards represents expenditure incurred by the organization in its capacity as principal, in accordance with IPSAS.

Notes

(a) Working capital funds are usually established to allow a "buffer" against reductions in revenues during a fiscal year or to finance temporary cash deficits as a result of delay in receipt of income. Since these funds cannot be used to offset losses in specified contributions, they are compared against total revenue excluding voluntary contributions, specified;

(b) The financial statements of IFAD are prepared in accordance with the International Financial Reporting Standards;

(c) For UNOPS, total revenue not specified refers to principal revenue, in accordance with IPSAS.
